Supply Chain Portal Presentation
Chris Gregory - V.P. Sales and Marketing

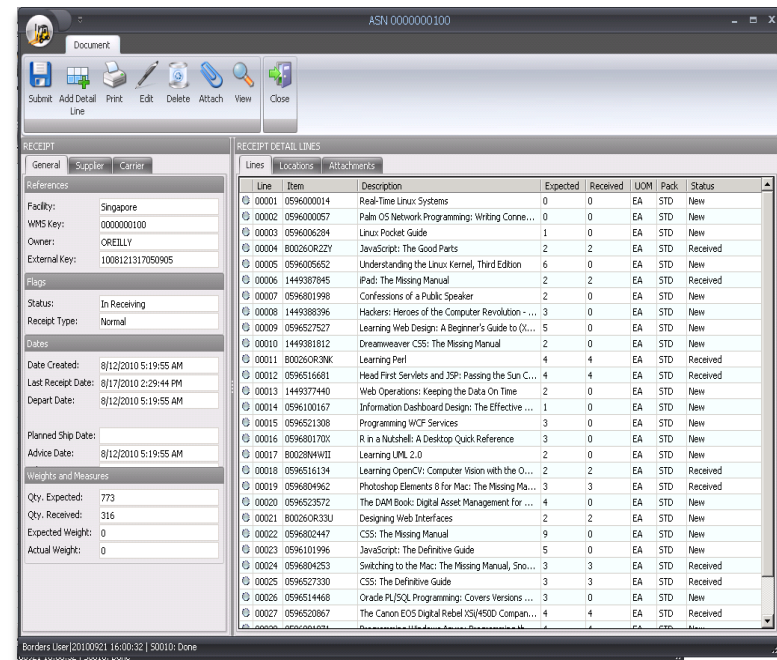

SCM WM Portal Products

– SCM WM Value Add Client Applications

- **Portals** - Web based access to Infor WM9
- **Mobile** - Windows mobile based access to Infor WM9

– Enterprise Integration and Reporting tools

- **IDX4** – the IDX Developer, Integration Engine, report writing, and Portal Development tools

SCM Warehouse Management Portal

- Internet enabled front end to Infor WM
- Designed for external parties to access WMS data
 - Customizable security module
 - User group view and logic
 - Suppliers, customers, owners, carriers, etc
- Creation, viewing and management of data in the Infor WM system
 - Consolidated data from all warehouses
 - Master data: Item, customers, suppliers, carriers, etc
 - Inventory information: balances, adjustments, holds, history
 - Document status, management and creation (PO, ASN, SO)
- Document attachments to orders, customers, items, etc
- EDI – Administrator view
 - Manage Interfaces / Upload & download files.

SCM Warehouse Management Portal

- User defined reports
- User Group login splash screen
- User login restrictions on functionality and data
- User defined document views, data fields, columns and descriptions (*Add New fields: i.e. Tracking*)
- User defined color themes

Portal Product Details

- Data warehouse flattens data from many sources
 - Data from all warehouses and other systems (i.e. carrier integration, TMS, etc)
- Backend uses IDX developer created interfaces to create data sets used to get data, as well as display data
 - Easily modified, new columns added, logical data added (i.e. A.T.P)
 - Easily add lookups and other data
 - Change data selection based on user group
- Submissions to Infor WM9 are via WM9 API
 - Follows all WM9 business rules
 - Can also generate data for other systems
